32 meetings per week in Area. Many are too large. We need more service support.

Discussion followed Re: service work. Suggestions from Barb Re: asking for support as some are not aware. Pam A suggested taking a look at what we're planning and participating in as individuals on the area level: being realistic with N.A.'s rapid growth. Ben mentioned that some have to do a lot of the work in the early stages. Greg suggested that new people that we sponsor be introduced to service work.

Jack talked about attraction vs promotion and delegating responsibility. Kim mentioned making clear what committment is and picking responsible people to take on new things.
